

LICENSING INSPECTION SUMMARY

The Ministry of Education (MEDU) inspects licensed child care centres at least once a year. This is to help protect the health, safety and well-being of children in this child care centre.

Childspace Day Care Corporation # 2 (690 Carlaw) was inspected by the ministry on *June 16, 2014*.

The chart below shows the licensing requirements met on the date of inspection. If the level is less than 100 per cent, it means that not all of the licensing requirements were met on the date of inspection.

The ministry gave the operator of the program instructions on what was required to meet the licensing requirements. Please speak to the operator of this child care centre to see a copy of the requirements. The operator can provide an explanation of the inspection findings and when the requirements were met.

More information about child care and licensing is available on the ministry website at www.ontario.ca/licensedchildcare.

Your local MEDU regional office is located at *393 University Avenue, 3rd floor Toronto, ON M5G 1E6*.
